

Talking Points For Tuesday's Rallies

Topline message for all events:

At a time of great economic hardship any debt deal that includes deep cuts to programs that the middle class depends on--like Medicare, Medicaid, and Social Security--and fails to ensure the rich and corporations pay their share is a bad deal. Any such deal should be rejected by all in the House and Senate.

Additional points:

- Representative [ADD LAST NAME] has been a real champion of seniors and the middle class in Washington.
- "[HE/SHE] has made it clear [HE/SHE] will not support any deal to raise the debt ceiling that cuts Medicare, Social Security and Medicaid benefits, or that fails to make millionaires and corporations to pay their fair share.
- We appreciate Representative [ADD LAST NAME]'s efforts to fight for the best interests of [STATE] families and urge [HIM/HER] to stand strong as negotiations over the debt deal stretch into the final week.
